- Karen Wiggins, Executive Director of Alcohol and Drug Services of Guernsey County

EXIT TICKET

APPALACHIAN OHIO P-20

TABLE TALK

SEPTEMBER 20, 2018

1. At your table, you will find a green paper entitled “Finding Your ACE Score.” Please look at the ten items and decide if you know anyone who has experienced any of these conditions. Which items remind you of a situation(s) that someone (child/adult) you know has experienced and how it impacted them.
2. Of everything you heard today, what is something you might have heard for the first time? It might be something you will likely share with someone else because you were truly surprised by it.
3. Various perspectives have been shared widening our awareness of the seriousness of trauma in the lives of very young children all the way to adults in the work place. How can we go from what we have heard today to **take just one step forward** in responding to this serious situation?

Thank you for coming!

Next Council Meeting
